

## Contents

Preface	xi
The Author	xiii
<b>1 Income Inequality, Earnings Inequality, and Poverty</b>	<b>1</b>
Why is Inequality of Concern?	5
Why Analyze Metropolitan Areas?	10
The Plan of the Study	13
Notes	14
<b>2 Why Poverty Rates and Income and Earnings Distributions Change</b>	<b>17</b>
Local Labor Market Effects on Income Distribution and Poverty	18
Sources of Earnings Inequality	18
Effects of Demographics on Income Distribution and Poverty	25
Location Effects: Regional and Intermetropolitan	26
Regional Variation in the United States	26
Summary	32
Notes	32
<b>3 The Data and the Variables</b>	<b>35</b>
The Data	35
Gini Coefficients	35
Poverty Rates	46
Economic and Social Characteristics	50
Demographic Structure of MSAs	50
Skill Composition	58
Local Labor Market	62
Structural Characteristics	65
Summary	68
Note	71
<b>4 Measuring Effects of MSA Characteristics on Income Distribution</b>	<b>73</b>
Measuring Income Distribution	73
How Income Is Measured	73
How Inequality Is Measured	75
Units of Analysis: Rates of Change within MSA Boundaries	77

Analyzing the Role of Demographics	79
How Changes in Demographic Structure Affect Distribution	80
The Analytical Approach	83
Notes	88
<b>5 Sources of Household Income Inequality</b>	<b>89</b>
Household Income Distribution	89
Demographic Structure	93
Skill Composition	95
Structural Characteristics	95
Labor Market Characteristics	96
Distribution of Household Income by Quintile	102
Demographic Structure	107
Skill Composition	107
Structural Characteristics	108
Labor Market Characteristics	109
Summary	109
Notes	111
<b>6 A More Detailed Study of Household Income and Individual Earnings Inequality</b>	<b>113</b>
Earnings Distribution	113
Earnings Inequality for All Workers	115
Earnings Inequality for Full-time Year-round Workers	119
Earnings Inequality within Occupations and Industries	121
Distribution of Household Income within Subpopulations	124
Summary	129
Notes	130
<b>7 Sources of MSA Poverty</b>	<b>131</b>
Comparing Household Inequality and Poverty Measures	131
Metropolitan Characteristics and Poverty	133
Demographic Structure	134
Skill Composition	139
Structural Characteristic	140
Local Labor Market Characteristics	142
Summary	143
Notes	143
<b>8 The Concentration of Poverty in the Central City</b>	<b>145</b>
Metropolitan Characteristics and the Concentration of Poverty	146

Demographic Structure	146
Skill Composition	147
Structural Characteristics	147
Local Labor Market Characteristics	150
Summary	152
Note	152
<b>9 The Role of the Macro Environment in Poverty and Household Income Inequality</b>	<b>153</b>
Summary of the Results	154
Demographic Structure	154
Skill Composition	157
Structural Characteristics	158
Local Labor Market	160
Policy Conclusions	162
Notes	162
<b>Appendix</b>	<b>165</b>
<b>References</b>	<b>179</b>
<b>Author Index</b>	<b>187</b>
<b>Subject Index</b>	<b>189</b>
About the Institute	201

## List of Figures

1.1 Percentage Change in Household Income Gini Coefficient, 1979–1989	2
1.2 Percentage Change in Earnings Gini Coefficient, 1979–1989	4
1.3 Ratio of Central City to MSA Poverty, 1969–1989	6
3.1a MSAs with Similar Household Income Inequality and Earnings Inequality, 1989	36
3.1b MSAs with Larger Differences between Household Inequality and Earnings Inequality, 1989	37

3.2a	10-Year Rates of Change in Household Income and Earnings Inequality (1979–1989), Group A	43
3.2b	10-Year Rates of Change in Household Income and Earnings Inequality (1979–1989), Group B	43
3.2c	10-Year Rates of Change in Household Income and Earnings Inequality (1979–1989), Group C	44
3.3a	1989 Poverty Rate and 1979–1979 Changes: Group A	49
3.3b	1989 Poverty Rate and 1979–1989 Changes: Group B	49
3.3c	1989 Poverty Rate and 1979–1989 Changes: Group C	50
5.1	Household Income Quintile Shares for Selected MSAs	103

### **List of Tables**

3.1	MSA Gini Coefficients for Household Income and Individual Earnings	39
3.2	Mean and Standard Deviation of 1979 and 1989 Metropolitan Poverty Rates	47
3.3	1980 and 1990 MSA Characteristics	52
3.4	Demographic Characteristics of Selected MSAs	59
3.5	Skill Characteristics of Selected MSAs	63
3.6	Local Labor Market Conditions in Selected MSAs	66
3.7	MSA Structure, Selected MSAs	69
4.1	Mean Gini Coefficient and Income for MSA Subpopulations of Households	81
5.1	Changes in Household Income Gini Coefficients for 182 MSAs, 1979 to 1989	90
5.2	Changes in MSA Income Inequality and Household Characteristics 1979–1989	99
5.3	Absolute Changes in Quintile Shares, 1979–1989	104
5.4	Changes in Share Accruing to Income Quintiles for 182 Metropolitan Areas, 1979–1989	105
6.1	Changes in Earnings Gini Coefficients for 182 Metropolitan Areas, 1979–1989	116
6.2	Changes in Household Income Gini Coefficients for Subpopulations, 182 Metropolitan Areas, 1979 to 1989	125

7.1	Percentage Changes in Metropolitan Poverty Rates for 181 Metropolitan Areas, 1979–1989	136
8.1	Percentage Changes in the Ratio of Central City to MSA Poverty Rates for 181 Metropolitan Areas, 1979–1989	148
9.1	Major Factors in Growth in Metropolitan Poverty and Income Inequality	155
A.1	Correlations between MSA Characteristics	166
A.2	Statistics on Income Distribution in 1979 and 1989, by MSA	168
