Figures

1.1	Predicted Total Earnings for Jobs in Selected Industries	20
2.1	Unemployment Rates for Six Metropolitan Areas (4-quarter moving average)	46
2.2	Basic Welfare Caseloads	48
2.3	Overall Welfare Exit Rates (4-quarter moving average)	49
2.4	Number Entering Welfare (4-quarter moving average)	50
2.5	Proportion of Entries Who Received Welfare in the Previous Two Years (4-quarter moving average)	51
2.6	Employment Rates for Welfare Leavers (4-quarter moving average)	53
2.7	Welfare Exit Rates for Employed Recipients (4-quarter moving average)	54
2.8	Proportion of Employed Exits with Support Gap (4-quarter moving average)	56
4.1	Employment Rate for Welfare Recipients (moving average)	93
4.2	Employed Recipients with New Job (moving average)	94
4.3	Survival for Welfare Job Spells	96
4.4	Hazard of Job Loss for Welfare Job Spells	97
4.5	Job Spell Chance of Survival Eight or More Quarters by Beginning Year	98
4.6	Job Spell Chance of Survival Eight or More Quarters by Beginning Year for Spells Matched by Earnings	114
5.1	Spell Length Variation over Time	140
5.2	Earnings Variation over Time	150
5.3	Length of Job Spell and Quarterly Earnings for Major Industry Categories	152

Tables

1.1	Welfare Caseload Trends in the United States and Six Areas	5
1.2	Welfare Exit Rates in Six Areas and Impact on Caseload	6
1.3	Welfare Exit Rates for Long-Run Recipients in Six Areas	8
1.4	Welfare Entry in Six Areas and Impact on Caseload	9
1.5	Employment Rates for Welfare Recipients in the United States and Six Areas	10
1.6	Employment Rates for Welfare Leavers in the United States and Six Areas (%)	12
1.7	Changes in Exit and Employment Rates for Welfare Recipients: Role of Personal Characteristics and Regime Changes in Five Areas	15
1.8	Stability of Jobs Held by Welfare Recipients: Six Areas	17
2.1	Decade of Welfare Reforms: A Chronology	25
2.2	Key Provisions of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193)	29
2.3	Recipients' Experiences under Reform: A Selective Survey	32
2.4	Legislative and Administrative Changes Affecting Welfare Programs at Study Sites	34
2.5	Changes in Welfare Rules Associated with TANF Implementation at Study Sites	40
3.1	Sample Statistics for Recipients	63
3.2	Probit Results for the Probability of Leaving and the Probability of Employment	66
3.3	Predicted Probabilities and Partial Derivatives, Leaving and Employment	70
3.4	Sample Means for Three Time Periods: Welfare Recipients	74
3.5	Predicted Probabilities of Leaving Welfare and Employment across Regimes and Cohorts	77
3.6	Predicted Probabilities and Partial Derivatives, Current Leaving and Employment Eight Quarters Out	81
3.7	Partial Derivatives from Tobit Estimates of Model Predicting Real Quarterly Earnings	84
4.1	Earnings Measures for All Welfare Job Spells and Matching Spells	100
4.2	Earnings Measures for Welfare Job Spells and Matching Spells of Length 3 or Greater	106
4.3	Earnings Measures for Welfare Job Spells of Length 3 or Greater and Nonwelfare Spells Matched by Second Quarter Earnings	110

4.4	Earnings Ratios of Welfare Job Spells and Matching Spells with Alternative Matching Criteria, Spells 1992–1997	116
4.5	Expected Spell Length in Quarters for All Available Spells, 1992–1999	117
5.1	Means and Standard Deviations for Spells across Six Sites	126
5.2	Estimated Impacts of Welfare Recipients’ Characteristics on Job Spell Length	128
5.3	Estimated Impacts of Major Industry on Job Spell Length	130
5.4	Proportion of Variance Explained for Models Predicting Spell Length	134
5.5	Estimated Impacts of Major Industry on Job Spell Length, Controlling Person Effects	136
5.6	Estimated Impacts of Welfare Recipients’ Characteristics on Job Spells for Spells Beginning in Various Periods	143
5.7	Estimated Impacts of Welfare, by Major Industry, on Total Earnings in Job	148
A.1	Summary of Measures of Welfare Dynamics	174
